We were going to do the casino wrap up tonight but parts of the drive from Bloomfield, NM to Garden City, KS were so scenic we'll just offer a few pics and hold you in agonizing suspense one more day.

Nope, we're not selling this as scenic. But the winds swirled along 160, spinning up dust devils and tossing tumbleweeds 20 feet in the air. You've probably never seen airborne tumbleweeds – we sure hadn't. And you won't see 'em in this postcard, either. Like they do on the local news when they have no actual video of anything remotely of interest: "Here's the scene! It happened right here!"
