## The Titan

Tallest of the Fisher Towers and the objective of our hike today.

We got lost at the beginning.

But here's one of the trail markers.

Early towers

Later towers

Other towers

Yet more towers

The very distant Castle Tower

Not a tower

As we were shedding layers on the way up I lost a glove.

But I found this one on the way down and it fit, so I kept it.

The Titan and his minions.

Have a nice day. We did.
